Abstract of JP 5117136 (A)

PURPOSE:To provide a cosmetic preventing skins from UV rays, reducing the generation of inflammation on the skin and giving moisture to the skin by compounding an amino acid ester and an UV ray absorbent. **CONSTITUTION:**A cosmetic is compounded with one kind or more of amino acid esters such as monomethyl glutamate ester, monoethyl aspartate ester and glycine propyl ester and further with one kind or more of UV ray absorbents such as para-amino benzoic acid, homomenthyl-N-acetyl anthranilate, amyl salicylate, octyl cinnamate or 2,4-dihydroxybenzophenone. The amino acid ester and the UV ray absorbent are preferably added in amounts of 0.01-2.0wt.% and 0.1-10wt.%, respectively, based on the whole amount of the cosmetic.
